Education

University of Toronto | Toronto *Expected 07/2026*

Master's degree in Management Analytics (MMA)

Concordia University | Montréal, Canada *05/2025*

Bachelor's degree in Data Science

Vanier College | Montréal *05/2022*

Collegial degree in Mathematics and Social Science

Experience

Scotiabank | Toronto,
Canada

AI Practitioner

01/2026 - 06/2026

- Architected a multi-view financial dashboard (Streamlit, Plotly) spanning portfolio risk analytics, per-client credit profiling, loan underwriting, and 5-year forecasting with debt paydown curves, net worth projections, and income growth modeling.
- Built a semantic search engine over structured financial data, embedding customer profiles with SentenceTransformers (all-MiniLM-L6-v2) and indexing them in a persistent ChromaDB vector store with cosine similarity retrieval.
- Implemented a multi-factor credit risk scoring model tiering clients into Low, Medium, and High risk on credit score, debt-to-income ratio, employment stability, bankruptcy history, and income.
- Developed a loan underwriting engine computing real-time payment estimates, post-loan DTI projections, and payment-to-income ratios across six loan products (mortgage, auto, personal, business, student, line of credit).

AI Contractor | Remote

Independent AI Developer

09/2025 - Present

- Deliver end-to-end AI products across multiple client engagements; full project portfolio at peter-s-website-b23x.onrender.com/projects.html.
- Built a complete website for a hotel client backed by AI agents that automate guest and operational workflows.
- Work with Mercor on AI research and model evaluation projects, including rating and ranking model outputs.

Management Controls Inc |
Houston, Texas

AI Intern

06/2022 - 08/2025

- Engineered an AI multi-agent system on Microsoft's Semantic Kernel (Python, FastAPI), deployed via a Chainlit based UI.
- Used Azure AI Studio to manage and deploy AI services, enabling scalable and secure agent orchestration.

Leadership & Activities

- **Ambassador, Rotman School of Management:** Represent the school at recruitment and community events since September 2025, welcoming prospective and incoming students and supporting their transition into the program.
- **Academic Director, Graduate Business Council:** Meet weekly with the program's Academic Director and faculty to review curriculum and student experience and drive ongoing improvements to the MMA program.
- **MMA Director, Rotman Business Analytics Club:** Organize networking events, case competitions, and learning sessions, creating hands-on environments for members to build analytics skills.
- **Director of Events, Model United Nations:** Organized a conference and networking events for nearly 250 international students, UN representatives, and charity executives; raised funds for non-profits while reducing costs 50% year over year.
- **Awards & Recognition:** Multiple Model UN awards (NYU, Cornell, McGill, Concordia); top rankings at Oxford Royale Academy, Oxford University; 1st place district and 2nd place national, UNESCO National Writing and Reading Competition.
